Industrial Relations Research Centre Annual Report 2018

Director's Overview

The Industrial Relations Research Centre (IRRC), founded in 1980, brings together research associates from inside and outside UNSW. We collaborate in conducting and diffusing research on workplace health and safety, workforce development, labour markets and in/equality and labour market policy implications of climate change.

We warmly thank its Head (our Deputy Director), Professor Michael O'Donnell.

For 2018, however, the Business School (Sydney) discontinued its scheme funding buyouts of half the teaching loads of faculty-based Research Centre Directors. Without this teaching relief, funding, research and industry engagement opportunities and engage in event organising on behalf of the IRRC.

Nonetheless, despite this unanticipated change, during 2018, the IRRC continued to meet its main source of operational funding.

CEA year of *The Economic and Labour Relations Review (ELRR)* and bridges economic, social and labour market policy research. In 2018, *ELRR* was in its 29th year and impacts. They deserve warm congratulations.
